

TEST SUMMARY REPORT

By NUR NAJWA SYUHADA

SauceDemo Web Application

1.0 Introduction

This document presents the summary of manual testing performed on the **SauceDemo web application** [SauceDemo](#). The testing was conducted to evaluate system functionality, usability, and reliability across multiple modules including Login, Product, Cart, Checkout, and Logout.

2.0 Testing Objective

The objectives of this testing are:

- To verify that all system functionalities work correctly
- To identify defects in the system
- To ensure smooth end-to-end user workflow
- To validate UI, functional, and navigation behavior

3.0 Scope of Testing

The following modules were included in testing:

- Login Module
- Product (Inventory) Module
- Cart Module
- Checkout Module
- Checkout Overview & Logout Module

4.0 Testing Type

The following testing approaches were used:

- Manual Testing
- Black Box Testing
- Functional Testing
- UI Testing

- End-to-End (E2E) Testing

5.0 Test Environment

- Application: SauceDemo Web Application
- Browser: Google Chrome (latest version)
- Device: Desktop/Laptop
- Testing Type: Manual Execution

6.0 Test Execution Summary

Item	Count
Total Test Cases	140
Passed Test Cases	134
Failed Test Cases	6
Blocked Test Cases	0

7.0 Test Results Overview

- **Passed Modules**
 - Login authentication works correctly
 - Product listing, sorting, and display functions are stable
 - Cart functionality works as expected
 - Checkout process is mostly functional
 - Logout and session handling works properly

- **Failed Test Cases Identified**

The following issues were identified during testing:

Bug ID	Module	Description	Severity
BUG001	Login	No account lock after multiple failed login attempts	Low

BUG002	Login	Password visibility toggle feature not available	Low
BUG003	Product	Product quantity cannot be adjusted per item	Low
BUG004	Cart	Multiple quantity handling not supported	Low
BUG005	Checkout	Data lost when navigating back during checkout process	Medium
BUG006	Checkout	Form validation allows invalid submission in certain cases	Medium

8.0 Overall System Evaluation

Strengths:

- System is stable and responsive
- Core functionalities work correctly
- End-to-end user flow is smooth
- UI is clean and easy to navigate

Weaknesses:

- Some expected features are not implemented (e.g. quantity adjustment)
- Minor validation and navigation issues exist
- Limited security features (no account lock mechanism)

9.0 Conclusion

Based on the executed test cases, the **SauceDemo web application is generally stable and functional for core user operations**. Most critical functionalities such as login, product browsing, cart management, checkout, and logout are working as expected.

However, several minor to moderate issues were identified, mainly related to missing features and navigation consistency.

Final Result:

PASS – System is stable with minor functional issues

10.0 Recommendations

- Improve checkout data persistence when navigating between pages
- Implement quantity adjustment feature for products
- Add security enhancement such as account lock after multiple failed logins
- Improve form validation handling in checkout process
- Enhance user experience for better navigation flow
